### **DETAILED ACTION**

- Examiner has considered Amendment after Non-Final mailed 11/2/2007.
- Claims 11-22, 29 are pending.

### ***Allowable Subject Matter***

1. Claims 11-22, 29 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 11, prior art of record does not disclose, in single or in combination, an ultra-wideband communication device comprising a first transceiver employing a common physical layer at a first rate, the second transceiver communicating only with ultra-wideband devices having like physical layers at a second rate greater than or equal to the first rate, communication based on capabilities recovered as part of information communicated at the first rate in combination with other limitations of the claim.

Regarding claim 16, prior art of record does not disclose, in single or in combination, a network with at least two devices each having a first and second transceiver, each first transceiver implementing a common physical layer operating at a low data rate and each of the at least two devices operate to select at least one physical layer associated with the second transceiver for communicating at a high data rate, based on communication capabilities recovered as part of information communicated at the low data rate, a master transceiver operating to allocate at least one of a low data rate communication frame and a high data frame communication frame to each of the at
